

## DEBRIS REMOVAL & EMERGENCY RESPONSE

DYNAMIC GROUP, LLC is prepared to support local governments ahead of **Ice Storm Fern**

Backed by decades of debris management experience, strong financial capacity, and FEMA-compliant operations, **Dynamic** delivers rapid, large-scale emergency debris response. We restore roadway access and support power restoration by mobilizing crews and owned equipment within hours and pre-staging ahead of storm impact. We provide rapid debris clearing for fallen trees and blocked roads to restore emergency access and support power restoration. Our crews and equipment will mobilize within hours of authorization, and we offer the ability to pre-stage ahead of storm impact.

Our team brings more than

**30 MILLION  
CUBIC YARDS**

of combined debris removal experience

### EMERGENCY RESPONSE

LOGISTICS

DEBRIS REMOVAL

TEMPORARY OFFICES & CLASSROOMS

Dynamic responds rapidly, mobilizing crews and owned equipment within hours. Unlike competitors who subcontract or rent, Dynamic owns and maintains a specialized fleet of equipment — ensuring fast mobilization, reliable performance, and job control.

## CASE STUDIES

### EMERGENCY LOGISTICS FOR FIRST RESPONDERS

After a Category 5 hurricane, Louisiana contracted Dynamic to support 300 state troopers protecting public safety. Within 72 hours, we deployed bunkhouses, structured tents, laundry trailers, HVAC, and generators—sustaining operations with fuel, water, wastewater, and disposal services, demonstrating unmatched logistics and management expertise.

### DEBRIS REMOVAL AFTER HURRICANE IDA

Mobilized immediately and began debris removal within 48 hours of Notice to Proceed. Cleared nearly 1 million cubic yards of vegetative, white goods, and C&D debris in under three months. Serving multiple affected municipalities, Dynamic was rapidly responsive and scaled operations to maximize 100% FEMA reimbursement.
